INTRODUCTION / INFORMATION

PURPOSE AND PROJECT SCOPE

The City of Hallandale Beach will accept responses from qualified FDOT Certified Landscaping Contractors firms to provide goods and/or services identified below.

SECTION 1: SCOPE OF WORK

The CONTRACTOR shall furnish all labor, materials, equipment, tools, incidentals and transportation which are necessary for the proper layout and completion of the work, as specified herein and shown on the design plans. The work includes but is not limited to:

- Temporary Construction Site Entrance (PVC Pipe & Asphalt)
- Temporary Protection of Existing Trees.
- Regular Excavation.
- Clearing & Grubbing.
- Concrete Sidewalk.
- Transplanting of Existing Palms.
- Installation of Plants & Trees.
- Sodding.
- Installation of Gravel Bed.
- Erosion & Sediment Control.
- Survey Work Required for Establishing Proper Layout, Elevations and Grades.
- Maintenance of Traffic
SECTION 2: LOCATION OF WORK

All work under this contract is within the FDOT right-of-way east of I-95 & Hallandale Beach Boulevard (HBB) in the City of Hallandale Beach. The project’s location consists of the drainage swales (ponds) on the northeast and southeast corners of I-95 and Hallandale Beach Boulevard (HBB) as well as the median directly in between the two areas.

SECTION 3: GENERAL NOTES

3.1 The following listed documents are incorporated by reference and the applicable portions thereof are made a part of this Bid as supplemented and amended by the provision of this contract.

a) Florida Department of Transportation STANDARD SPECIFICATION for Road and Bridge Construction 2014, hereinafter called FDOT Standard Specifications.

c) Florida Department of Transportation Roadway and Traffic Design Standards, 2013, hereinafter called FDOT Design Standards.

3.2 All excess excavated material and debris not required for backfill (unless otherwise noted) and other debris are to be disposed of by the Contractor at an approved off-site facility. No materials shall be disposed of at the job site.

3.3 Where FDOT Standard Specifications are referenced, it is to be understood that these specifications are to be used only as applicable and the applicability of any specification shall be determined by the CITY ENGINEER or his/hers designee.

3.4 Where specific materials or manufacturers are referenced, alternatives will be considered upon written request, but it shall remain the prerogative of the CITY ENGINEER or his/her designee to approve or disapprove any materials or manufacturer without explanation. All materials approved by the CITY ENGINEER or his/her designee are to be used per manufacturer’s instructions and requirements. This includes any required training and supervision, typically on the first installation.
3.5 For each task described in these specifications there may be materials listed. These materials are intended to be the major material items, and do not necessarily constitute a complete listing. The CONTRACTOR shall be responsible for including in his bid all the items which the CONTRACTOR can reasonably be expected to have recognized the need for. No change in the bid price shall be claimed due to absence of reference to such material from this document.

3.6 Quantities shown in bid documents are estimated. The CITY does not guarantee any maximum of minimum quantity, any range of quantities, or the exact quantities shown for each item to be bid. The actual reimbursement to the CONTRACTOR is based on the unit bid prices of the actual amount of work authorized for completion and approved by the CITY ENGINEER or his/her designee.

3.7 It is the intent of the City to describe, in the Contract Documents, a functionally complete Project (or part thereof) that is to be constructed in accordance with the Contract Documents and in accordance with all laws, codes and regulations governing construction of the Project. Any work, materials or equipment that may reasonably be inferred from the Contract Documents, as being required to produce the intended result shall be supplied by the Contractor whether or not specifically called for. When words, which have a well-known technical or trade meaning, are used to describe work, materials or equipment, such words shall be interpreted in accordance with that meaning. Reference to standard specifications, manuals or codes of any technical society, organization or association, or to laws and regulations of any governmental authority, whether such reference be specific or by implication, shall mean the latest standard specification, manual, code, law or regulation in effect at the time of the opening of bids and the Contractor shall comply therewith. The City shall have no duties other than those duties and obligations expressly set forth within the Contract Documents.

SECTION 4: MOBILIZATION

4.1 This pay item shall be used in accordance with Section 101 “Mobilization” from FDOT-Standard Specifications for Road & Bridges Construction, 2014 Edition. The project, including, but not limited to, those operations necessary for the movement of personnel, equipment, supplies, and incidentals to the project site and for the establishment of temporary offices, buildings, safety equipment and first aid supplies, and sanitary and other facilities. Include the costs of bonds and any required insurance and any other preconstruction expense necessary for the start of the work, excluding the cost of construction materials.
4.2 Measurement and Payment

The CONTRACTOR shall determine the cost for mobilization for the entire project and include his price in the lump sum item listed in the proposal. Price and payment will be full compensation for all mobilization required.

Mobilization/Demobilization, General Requirements and MOT will be paid as partial payments in accordance with the following:

SECTION 5: MAINTENANCE OF TRAFFIC

5.1 This pay item shall be used in accordance with Section 102 “Maintenance of Traffic” from FDOT-Standard Specifications for Road & Bridges Construction, 2014 Edition. Maintain traffic within the limits of the project for the duration of the construction period. Construct and maintain detours. Furnish, install and maintain traffic control and safety devices during construction. At the pre-construction meeting the Contractor will be required to provide a letter with Contractor’s Worksite Traffic Supervisor and a copy of their Certifications, a letter naming Contractor’s Flagmen and copy of their training certificates, Maintenance of Traffic Plan and a letter outlining the specific maintenance of traffic plans which will be used during construction. Contractor shall include costs for hiring off Duty Police Officers as needed to maintain safe traffic control procedures through work zones.

5.2 Measurement and Payment

The CONTRACTOR shall determine the cost for maintenance of traffic for the entire project and include his price in the lump sum item listed in the proposal. Price and payment will be full compensation for all maintenance of traffic required. MOT will be paid as a percentage of the value of work in place as stated in the table above.
SECTION 6: CLEARING & GRUBBING

6.1 Perform clearing and grubbing within the project work limits and as indicated in the Plans in accordance with the FDOT Standard Specifications (Section 110).

6.2 Measurement and Payment

The CONTRACTOR shall determine the cost for clearing and grubbing for the entire project and include his price in the lump sum item listed in the proposal. Price and payment will be full compensation for all clearing and grubbing required.

SECTION 7: REGULAR EXCAVATION

7.1 Perform minor excavation for the construction of grassed swales as indicated in the Plans and in accordance with the FDOT Standard Specifications (Section 120). Excavation associated with landscaping construction shall be included in the unit price for those individual items.

7.2 Measurement and Payment

Payment shall be full compensation for the excavation, hauling and disposal of materials and shall be made at the unit price listed in the proposal.

SECTION 8: SIDEWALKS

8.1 Construct 4” thick concrete sidewalk in accordance with FDOT Standard Specifications (Section 522) and as shown on the Plans or as directed by the CITY ENGINEER or his/her designee. All concrete shall be minimum 3,000 psi. Sidewalk elevation shall match existing pavement at connection points. When immediately adjacent to curb and gutter the sidewalk shall match existing back of curb elevations. Sidewalk shall be sloped 1/4 inch per foot toward the road.

8.2 Measurement and Payment

Payment shall include all labor, materials and equipment necessary for construction of sidewalks and shall be made at the unit price listed in the proposal for the in place sidewalk measured in the field.
SECTION 9: GRAVEL BED

9.1 Furnish and Install new gravel bed as indicated on the plans or as directed by the CITY ENGINEER or his/her designee.

9.2 Measurement and Payment

Payment shall include all labor, materials and equipment necessary for installation of gravel bed and shall be made at the unit price listed in the proposal for Gravel Bed.

SECTION 10: SODDING

10.1 Establish growing, healthy sod over all disturbed areas as indicated and specified in the Plans or as directed by the CITY ENGINEER or his/her designee in accordance with FDOT Standard Specifications (Section 570). Sod material shall be strongly rooted Bahia grass of good quality and free from weeds.

Finished elevation of new sod along edges of existing sod must match the elevation of the existing sod. Completed sod surface shall be even and firm and shall be flush with top of abutting walks, paving, concrete borders, catch basins, and the like.

10.2 Measurement and Payment

Payment shall include all labor, materials and equipment necessary for the satisfactory establishment of the sod and shall be made at the unit prices listed in the proposal for each square yard of sodding, measured in place.

SECTION 11: PLANTING OF TREES

11.1 Furnish and install new trees and plants, transplant palms and protect existing trees as indicated and specified in the Plans or directed by the City Engineer in accordance with the 2013 FDOT Design Standards and 2014 FDOT Standard Specifications for Roads & Bridge Construction. All trees to be planted shall be Florida Grade #1, in accordance with Grades and Standards for Nursery Plants, latest edition, published by the Florida Department of Agriculture. Provide healthy, vigorous stock, free of disease, insect eggs, larvae and defects such as lenots, sunscald, injuries, abrasions or disfigurement and grown in a recognized nursery in accordance with good horticultural practices.
Determine location of underground utilities and perform work in a manner which will avoid possible damage. Hand excavate as required.

Trees are to be maintained by the CONTRACTOR for forty five (45) days after planting. Required maintenance shall include watering each tree planted with at least twenty (20) gallons of water three (3) times per week and maintaining tree stakes or guides so that tree remains secure in a vertical position. Restore or replace damaged wrappings and spray as required to keep trees free of insects and disease.

Trees planted and accepted by the CITY ENGINEER or his/her designee shall be guaranteed for a period of one (1) year after the date of final completion against defects, including death and unsatisfactory growth, except when such is caused by abuse or damage by others. Contractor shall remove and replace trees found to be dead or in unhealthy condition during warranty period.

11.2 Measurement and Payment

Payment shall include all labor, materials and equipment necessary for the furnishment, planting, establishment and maintenance of new trees and shall be made at the unit prices listed in the proposal for the type of trees planted.

SECTION 12: RESPONSIBILITY OF THE CONTRACTOR

12.1 It shall be the responsibility of the CONTRACTOR to remove from the job site, and properly dispose of, all residue at the end of each and every workday. No materials, equipment and/or debris shall be left in street right-of-way overnight without the permission of the CITY ENGINEER or his designee, or on private property without property owner's permission.

12.2 The CONTRACTOR shall be responsible for survey work required for establishing proper layout, elevations and grades as noted on the design plans and shall provide the CITY with a set of certified as-built plans. The survey work and certified as-built plans shall be considered incidental to pay item works.

12.3 Dust Control

It shall the CONTRACTOR’S responsibility to control dust by watering and sweeping at the end of each and every workday or as directed by the CITY ENGINEER or his/her designee. The water used shall be paid for by the CONTRACTOR. Should the CONTRACTOR fail to control dust to the satisfaction of the CITY ENGINEER or
his/her designee, the CITY will control the dust by whatever means the CITY deems necessary and the CONTRACTOR shall pay all expenses incurred by the CITY associated with the control of the dust.

12.4 Notification to Residents

It shall be the CONTRACTOR'S responsibility to notify residents, in writing, 48 hours prior to performing any work. Notification must include type of work to be performed, date work will start, and estimated time to complete work. In the event CONTRACTOR changes schedule or duration of work, CONTRACTOR must notify resident, in writing, of such changes. CONTRACTOR must provide a copy of all written notification to the CITY ENGINEER or his/her designee.

12.5 The CONTRACTOR shall perform the work in a professional manner so as not to discredit or reflect poorly on the image of the City of Hallandale Beach (i.e., use of foul language, alcohol or improper conduct shall not be permitted).

12.6 Extreme care shall be taken to safeguard all existing facilities, site amenities, sprinkler systems, underground utilities and vehicles on or around the job site. Damage to public and/or private property shall be the responsibility of the CONTRACTOR and shall be replaced or repaired in a timely manner to the owner's satisfaction by the CONTRACTOR at no additional cost to the CITY.

Some underground utilities are indicated on the design plans as accurately as possible. The CITY does not represent that their location as shown on the design plans is accurate or that all underground utilities and services are shown on the design plans. It is the CONTRACTOR'S responsibility to locate and protect all underground utilities or services when excavating or constructing the proposed improvements.

12.7 The CONTRACTOR shall protect from sediment and debris any existing catch basin with gravel sediment trap or other means acceptable to the CITY ENGINEER or his/her designee while work is in progress. Filter fabric shall be removed after completion of work or sod has established. Filter fabric must be cleaned periodically to avoid excessive accumulation of sediment and debris. Extreme care shall be taken when removing filter fabric to avoid sediments and debris entering catch basin.
12.8 **Traffic Control and Safety**

Traffic shall be directed through the project with such signs, barricades, devices, flagmen, as are necessary to provide maximum safety for the public and workmen with minimum interruption to the traffic flow and in accordance with Florida DOT's Manual on Uniform Traffic Control for construction and maintenance work zones.

The CONTRACTOR shall have adequate manpower to provide the necessary traffic control at all times. The CITY will not provide any assistance to this end.

12.9 **Field Engineering**

Incidental to the Bidder's Proposal costs submitted, the CONTRACTOR shall retain the services of the registered land surveyor licensed in the State of Florida to identify existing control points and property lines indicated on the drawings as required.

The CONTRACTOR shall also provide engineering services required for survey work in execution of the project and civil, structural or other professional engineering services specified, or required to execute the CONTRACTOR’S construction methods and requirements.

Qualified engineers or registered land surveyors shall be acceptable to the CITY ENGINEER or his/her designee.

12.10 **Plant**

The CONTRACTOR shall furnish personnel and equipment which will be efficient, appropriate and large enough to secure a satisfactory quality of work and a rate of progress which will insure the completion of the work within the time stipulated in the Proposal. If at any time such personnel and/or equipment appears to the CITY ENGINEER or his/her designee to be inefficient, inappropriate or insufficient for securing the quality of work required or for producing the rate of progress aforesaid, he/she may order the CONTRACTOR to increase the efficiency, change the character or increase the personnel and equipment, and the CONTRACTOR shall conform to such order. Failure of the CITY ENGINEER or his/her designee to give such order shall in no way relieve the CONTRACTOR of his obligations to secure the quality of the work and rate of progress required.
12.11 Private Land

The CONTRACTOR shall not enter or occupy private land outside of easements, except by permission of the owner.

12.12 Cooperation Within this contract

The CONTRACTOR shall cooperate with the CITY and with other contractors on the work to avoid inconvenience and delay and to facilitate completion of the entire work in a satisfactory manner.

12.13 TEMPORARY SITE FACILITIES

Temporary Toilets

The CONTRACTOR shall provide in the vicinity of the work, at locations satisfactory to the CITY and maintain in a sanitary condition, suitable temporary toilets for the use of the workmen. Upon completion of the work, the temporary toilets shall be removed and the premises left in a sanitary condition.

The temporary toilets shall be satisfactory to the Department of Health.

Power and Telephone Service

The CONTRACTOR shall arrange and pay for all power and telephone service required for construction purposes.

Water Use During Construction

All CITY potable water used during this project shall be metered through a hydrant meter or meters obtained from the City Water Department. There is a $1,200.00 deposit required for the use of a hydrant meter.
