## **REVIEW CRITERIA/APPROVALS**

A Temporary Use – Special Event Authorization application is subject to the City Manager’s approval upon determination that:

- (1) Surrounding and nearby properties are suitably protected from adverse conditions that may reasonably be expected to result from proposed use.
- (2) The proposed use is not likely to create hazardous vehicular or pedestrian traffic conditions, or result in traffic in excess of the capacity of streets serving it.
- (3) Adequate off-street parking is available.
- (4) Adequate utilities, drainage, refuse management, emergency services and access, Traffic control, security, and other necessary facilities and services are available, and all necessary sanitary facilities have been approved by the proper authorities.
- (5) All other applicable laws and regulations of the City and of any other regulatory body or agency have been complied with.

**Temporary Use – Special Event Authorizations are generally issued for a specific period of time not to exceed five (5) days or in the case of a seasonal sale such as Christmas trees and pumpkins, thirty (30) days.**

## **PREMISE PERMIT**

In certain circumstances, the Building Official will require that a Premise Event Permit be obtained and associated inspections(s) may be performed and approved.

During the review of an application for a Temporary Use/Special Event Authorization, the Building Division determines if a Premise Permit is necessary in addition to the Temporary Use/Special Event Authorization. If individual components of the proposed event require a permit, such components are reviewed and approved through the Premise Permit.

The purpose of the Premise Permit is to assure the safe use of a property or portions thereof for assembly and/or of those temporary structures occupied. At minimum, the planned layout is inspected for proper egress from the area in case of an emergency. Both the Fire Department and the Building Division have an obligation to determine a use is safe and to verify proper configuration of public gatherings. Other components such as temporary tents and structures, electrical power and restroom facilities, whether requiring permits or not, are often needed to support temporary assemblies.

The processing of a Premise Permit application includes a review of the overall crowd confinement and configuration on site, a verification that enough egress points exist, and confirmation that restroom facilities are provided to prevent a sanitary concern.

A field inspection will confirm the approved installed layout and any individual components included in the permit as necessary.

In addition to the fees for Temporary Use/Special Event Applications, if it is determined that a Premise Permit is required, the applicant also pays the associated building permit fees for such Premise Permit.

The following checklist has been developed for informational purposes on common temporary structures requiring the submittal of a Premise Permit in the Building Division:

| <b>Structure</b>               | <b>Permit Required</b> |
|--------------------------------|------------------------|
| Tents                          | Building Permit        |
| Temporary bleachers            | Building Permit        |
| Temporary stages               | Building Permit        |
| Portable Toilets               | Plumbing Permit        |
| Signage                        | Building Permit        |
| Generator                      | Electrical Permits     |
| Music amplification system     | Verify with Bldg. Div. |
| Other Structures not mentioned | Verify with Bldg. Div. |

In the event that a Premise Permit is required from the Department of Sustainable Development, permit applications may be submitted to the Building Division **simultaneously** with the application for the Temporary Use-Special Event Authorization. For more information about required premise permits, please contact the Building Division at 954-457-2220.
