

**CITY OF HALLANDALE BEACH**

**EROSION AND SEDIMENTATION CONTROL**

**AGREEMENT**

**Construction Sites Less Than One (1) Acre**

Contractors who are planning to have construction operations over areas less than one (1) acre must implement appropriate pollution prevention techniques to minimize erosion and sedimentation and properly manage stormwater.

Contractors are required to submit a sedimentation and erosion control plan to the City of Hallandale Beach (City). This plan will be reviewed and upon approval of the plan, a permit will be issued. The contractor is not required to submit to Broward County Department of Planning and Environmental Protection (DPEP), nor submit the Notice of Intent (NOI) to the State of Florida Department of Environmental Protection (FDEP).

The contractor shall execute the work authorized in a manner so as to minimize any adverse impact of the works on natural environmental values, water quality, fish, and wildlife. The contractor shall institute necessary measures during the construction period, including fill compaction of any fill material placed around newly installed structures, to reduce erosion, turbidity, nutrient loading and sedimentation in the receiving waters. Any erosion, shoaling or deleterious discharges due to contractor's actions will be corrected promptly.

***All construction entrances shall provide an area where mud, dirt, soil can be removed from construction vehicles tires before they enter a public road. Tire washing system shall be provided, and provisions must be made to intercept the wash water and trap the sediment before it is carried offsite. The wash areas and the washing system must be shown in the construction plans submitted for the building permit. In case that the dirt, mud, soils are dragged into the public roads, the contractor is responsible to wash and sweep every time this occurs.***
